## Liability Insurance

help protect drivers when they're responsible for an accident that injures others or damages other people's property. It's required in most states

## Personal Injury Protection

if you or other on the policy are injured in a car accident, this reimburses for medical treatment

## Collision

covers your car if you collide with another car or object like a tree, pole or building

## Underinsured/ Uninsured Motorist

this protects you if you're injured by a driver who doesn't have auto insurance; or if the responsible party doesn't have enough coverage to cover the full cost of your claim

## Comprehensive

provides coverage for your car from loss due to fire, theft, or damage caused by a collision with a deer
